Why Man Power from Pakistan

# ***Man Power Supply***

## *Procedure for Hiring Man Power*

What we require is Power of Attorney and Demand note / letter

On receipt of Demand Note and power of Attorney, we seek permission from Protector of Emigrants, to avoid every possible discrepancy.

Following this, we advertise on nationwide basis, using the print media (newspapers) for effective and efficient screening and scanning of potential candidates and also check our pool of candidates .

Medical / trade test is done of candidates through government authorized medical centers

Giving brief about the working conditions and details to the candidates separately and in front of employer delegations

We take responsibility to provide the best and healthy manpower for your company from Pakistan at your place

**Note:** This procedure is only applicable to get huge manpower from Pakistan and is not applied on Executive Search & Selection.

## ***Why Man Power from Pakistan (1)***

Pakistan workforce (skilled, semi skilled and un-skilled (Labour)) is second to none in the world. Our technicians and workers have played major role in the completion of development project in almost all Middle East Countries. In Europe, especially in England, Pakistani manpower has made positive contribution for progress and prosperity.

### **Skilled Workforce**

Pakistan is having approximately 150 Public and Private sector universities with state of the art facilities. The Pakistani graduates are competing in all over the world and working in different sectors including Telecommunications, IT, Engineering, Manufacturing, Medicines, Pharmaceuticals, Accountancy, Education and management. English is the official language of higher education in Pakistan. Therefore, communications skills of Pakistani skilled work force has no comparison, while Arabic is taught in schools as compulsory subject and therefore, the understanding of Arabic is much better as compared to other non Arabic nations. Wide range of professionals are also having good communication skills in French, Chinese and Spanish.

# ***Man Power Supply***

## ***Why Man Power from Pakistan (2)***

### **Semi Skilled Work Force**

There are number of vocational training center working in Govt and private sector, which are giving trainings including following.

1. Automobile
2. Electricians
3. Steel Fixers
4. Telecom Technicians
5. Nurses and Para medical

### **Labour**

Pakistani labour is hard worker and ready to accommodate in any local conditions. The diversity of weather from extreme cold Northern areas to extreme Hot south part in Pakistan make it very easy for the labour to adopt to the given conditions of the working country.

## TO ENGINEERING AND TECHNOLOGY SOLUTIONS (ETS)

In 2010, Huawei Technologies Senegal (one of the leading Telecom equipment manufacturer in the world) met some difficulties of middle / high level employee recruitment for West Africa, fortunately, ETS was recommended to us, and we recruited excellent engineers for Senegal and Mali offices, all of them gave great contribution to our business, they supported our projects well.

It's a very nice experience cooperating with ETS, which is a very good partner: quick response, high quality CVs, passionate services, delightful dual communication, etc.

It's my pleasure to give my appreciation to ETS and recommend them for HR Consultancy & recruitment projects

I hope to have further cooperation in the future.

Customer Recommendation  
for providing Recruitment  
Services to Huawei Senegal  
and Mali office which includes

- Core Network Engineers
- Data Comm Engineers
- Microwave Engineers
- BSS Engineer
